THE AGRICULTURAL SOCIETY APPAIRS.

We publish to-day the bill in rela tion to the Agricultural Society's In the copy sent to us there was evidently an error which should be corrected. Section 6 allows a tax of 5 per cent. upon the property of this county. It must be 5 cents on the hundred dollars that was intended. We have tried to get a knowledge of the wishes of the people upon this matter, and while some oppose the county's assuming the debt, yet we believe that a majority of the taxpayers favor it. The fair has paid expenses even during the dull times of the past three years, and there is no doubt about its being self-austaining if properly handled. There is one point which we would like to see covered, and that is the management of the in-stitution. If the county assumes the debt, a part, if not a majority of the board of trustees, should be named by the taxpayers either by election or by nt of the Commissioners. We balleve it better, even if the fair is not self-sustaining, for this county to pay a small bonus rather than to lose it. There is no one thing that benefits Reno so much as it, and it can be handled as well by the county as by the Society, if the right men are at the head of it.

DEFEAT OF THE ASYLUM BILL.

A telegram to the GAZETTE from Carson, received too late for publica tion yesterday, announced the defeat of Powning's Asylum bill in the Assembly by a lack of one vote necessary to a constitutional majority of twenty-six. Ross Lewers moved for a deration, but a telegram received this afternoon announces the final defeat of the bill. It was anticipated that the vote would be very close. No doubt many of those who voted against the bill had con scientious reasons for so doing. Others who voted against it probably had substantial reasons of a metallic character to determine their action The result of yesterday's vote was not unexpected here, and the news was received with tranquility. question was not of a purely local character, and in urging the passage of the bill it has been pointed out that an asylum was needed for the best interests of the State, for the welfare of patients, and for the convenience of their friends and relatives. Reno's prosperity is not at all dependent on thment of State institutions within her limits, and the anxiety for buted to the people of Washoe county has existed only in the bright imagion of newspaper correspondent at the capital.

STUDY THE BILL.

A bill to allow the School Trustee of District No. 10 of Washoe county to issue bonds, has been reported favorably by the committee and will w come up for passage. Lest some embers do not understand the object of this measure, we will briefly state it. This District issued bonds to build a new schoelhouse in 1879. The trustees advertised for bids. They accepted that of the lowest contractor and he gave ample bonds. The school house was built, but there are bills reining unpaid of twenty-three hunred dollars. The proposition now is a issue bonds for this amount instead collecting it from the contractor's e, this is unjust. If a man en-

company has "smoked out" the Rich-mond men from the disputed ground. The Miners' Union has interposed to prevent bloodshed. The trouble will probably be peacefully settled in the courts.

A call for a mass meeting has been made by fifty citizens of Sacramento to protest against further hydralic mining. The meeting is to be held to-night.

The Cry Of A Horse.

From the NewYork Tribune. In one of Cooper's novels that Cooper, who in knowledge of nature and American self-reliance, was worth all the chitlings now engaged in fiction is the description of the cry of a horse, as in his supersource moments he does guage, this is unjust. If a man endorses a note due to an individual, he pays. If he endorses a contract due a community he tries to get out of it. The Washoe delegation should oppose the bill.

There is war between the Richmond and the Albion mining companies at Eureka. A rich body of ore has been found in territory claimed by both. The two mines are connected by drifts on the lower levels, and the Albion company has "smoked out" the Richmond him.

A Novelty in Fish-Hatching.

E. T. Sachs writes to Nature from Batavia: "Within the past month I have been so lucky as to make what is a very interesting if not remarkable discovery. On the Is-land of Biliton, 200 miles from here, I found a fresh-water fish which pro-duces its young living from its mouth I am quite prepared for the cry of in-credulity that will be raised, but I conducted my observations with liv-ing fish and closed doors, and what I ert is undeniable: the eggs are hatched in the lower portion of the head of the fish, and are projected out at the mouth and from nowhere else. CABY CRIEVED.

He Resents the Bard Names Called Him by Chamberlain, and Claims the Right to be Heard in Reply.

Fr. BIDWELL, Cal., Feb. 12. Editor Gazette:-As one I. Chamberlain, who claims to be a deputy sheriff of Washoe county, Nevada, and who recently made a signal fail-ure of a little kidnaping scheme he was at the head of, has seen fit to rush into print, to prove to his constituents that he is a regular typhoon, a latent earthquake, a devastating army, as it were, and in his bombastic efforts at vindication, has not only maligned the motives of law-abiding citizens of Bidwell, but has uttered a falsehood in nearly every line of his article. I wish, for the sake of fair play and in justice to the citizens of Bidwell who, without exception, approve my course, to have my side of the story heard; and shall then be content for unbiased people to draw their own infer-On Jan. 25 Jose Domingoes, a poor,

ignorant, timid Mexican, a resident of Coleman valley, Roop county, Nevada, who keeps there a small band of cattle and horses, was arrested at this place, brought before Judge Sander's Court. charged by one E. W. Crutcher with having stolen a horse from his range. (Stealing of unbranded horses and cattle is a universal and generally constock men of the Pacific States and Territories.) Mr. Crutcher produced all his evidence, and his counsel finding that there was not enough to convict, generously allowed counsel for defence to make a motion for dismissal on the above grounds, Domingoes, in the meantime, having been bulldosed into surrendering the horse and paying costs. As soon as Crutcher another warrant against Domingoes, on the same grounds. Crutcher had boasted that he "would send him (D.) to State Prison if it took a thousand dollars." This second warrant was given to Chamberlain to serve, and then followed the farce in which this sagebrush lion played so valiant a part. He says in his version that, "having traveled 200 miles in pursuit, I deemed it best to get my man, even though he was over the line." It is a known fact that Domingoes had not been out of Bidwell since his discharge, and had this highly-efficient officer of the law been more familiar with the geography of his own State, he would now that Bidwell was out of the jurisdiction of the law of Nevada, and had he not been ignorant of the laws he had sworn to uphold, he would have provided himself with the requisition necessary to take a man from another State, before starting on his "200-mile pursuit." But I am charitable enough to concede that this experience will teach even him not to make a like blunder in future. As to the charge of keeping a "groggery," I have no wish to conceal or misrepre-

He further asserts that "had the rescuing party been an hour later I would have taken all six to Reno." The rescue was made by four persons. one a boy. But why an hour later? Was there a "sleeping lion in his breast" that would have "roused" at that time? By the decidedly childlike manner in which he "ate the leak," this sounds very like ancient Pistel's remark after Fluellen was out of hear-ing: "All hell must stir for this!" This stalwart did not make the slightest possible resistance when ordered to halt and throw up his hands, and umped down from the buggy almost coluntarily, and acted throughout the entire interview more like a whipped dog than like a man, to say nothing of a fighter, a conqueror, a Napoleon a man who would have arrested six persons single-handed, one hour later, nd taken them to Reno unchained. He further states that "had the prisoner demanded his authority, I would not have persisted in his arrest." This is highly consistent with the previous declaration that having traveled 200 miles in pursuit he thought it best to get his man, even though he was scross the line. The fact of the matsee his authority, so did one Geo.

nade. I apprehend no personal dan ger, notwithstanding his threats made while in this valley, to have me tarred and feathered by the Rene mob, by courtesy styled a "bucket brigade" on my first visit to that place. All that I regret is that by persistent lying and continued blowing of his nauseating horn, he can hoodwink his constituents into the belief that he is an able and efficient officer of the law. W. P. GABY.

Street Improvements. Evans Bros have built a strong and wide bridge over the Orr ditch where it is crossed by Virginia street, and have the lumber on the ground to put one over the English ditch. When this is done, Virginia street will be open to the Oregon line. A little work is necessary to clean out sagebrush and smooth the ground between the town limit and the stone quarry, where the junction with the Sierra street road will be made. There are no such sharp pitches on the new as there are on the old road, and it would be a vast improvement to open up the new route. It would add greatly to Reno's attractions to have a pleasure drive where we could go out one way and back the other, to say nothing of the advantages to teamsters and ranchers.

Mining Stocks. The interest in the mining stock market now centres about Alts, which has doubled in price in the last few sidered, legitimate practice among days. It sold as high as \$2 50 yesterday afternoon, and this morning was in active demand, the sales amounting to 2,990 shares. The opening price was 2 30, and it closed at 2 40. It is reported on the street that the shaft which is being sunk has struck ore. It is noteworthy, however, that the Virginia papers make mention of no new developments. Other stocks elesed this morning at the folcould get into Nevada, he swore out lowing q notations: Ophir, 4 90; Mexican, 51 6; Best & Belcher, 7%; Savage, 2 15; Hale & Norcross, 3 70; Point, 1. 40; Imperial, 15c; Sierra Nevada, 6 16; Utah, 7%; Bullion, 1 15; Benton , 75c.

The Dance This Evening.

The Amateur Quadrille Band's in vitatic a dance this evening will, with a few motable exceptions, attract pretty much all the youtle, and beauty, and fashion, and friskiness, of Reno. The band have been in constant practice all winter, and their performance is truly admirable. New pieces will be played for the occasion. Dancing will commence at nine o'clock and last till one. The invitations which were issued some weeks ago, for a party which was postponed on account of bad weather, are good for this even-

Beneath the Wheels. A man named Jake Evans, supposed to be a tramp, was run over by the west-bound overland at Boca last night. He had been riding on the root of a car, and was made to get off. He then tried to swing under a car to get on a brake beam, while the train was in motion, and fell beneath the wheels. He was taken to Truckee where it was found necessary to amputate both his legs. There is little chance of his recovery.

A DESERVED REBUKE

To the "Journal", forfits Championsh

RENO, Feb. 16, 1881. Ep. Gazette: Inasmuch as the editor of the Journal has seen fit to besmirch the character of respectable citizens of Reno with Chinese slime, I desire to say a few words. First, it is well known that opiun

smoking is extensively indulged in by SHOES, many inhabitants not only of this but of other towns. Secondly, it has been proved con-

clusively to respectable citizens here that the Chinese dispense the poison not only to adults but also to minors -the children of these respectable citizens.

Thirdly, that the officers are and have been unable-however willing they might be-to arrest and convict

Any father of a boy thus led into destruction and shame who would stand idly by and allow this, would be worse than a coward and knave, worse than the dispenser of the deadly drug, and worse than the editor of the Journal, who, being the special attorney of the Chinese, is, for aught I know, a patronizer of their opium dens. Let him know, however, that if the nuisance is not abated, respects ble citizens of Reno will see that it is, notwithstanding the assistance or apologies of this Chinese abettor in crime-and crime it is. I am no sympathizer with mob law, but I sympathize with fathers and mothers whose sops are led to disgrace and misery by the soulless lepers who sell the drug to old and young alike, as long as they get the coin; and while the Journal man, as a hired attorney, has a right to defend in court the epium seller for coin, he has no right to apologize for them in the public press; but some folks stretch their conscience—if they have any—for A RESPECTABLE CITIZEN

From the Springfield Republican.

A funny story comes from eastern Connecticut which is well vouched for During the war William Stuart, the theatrical manager and writer, was to give a dinner at his house, near the Pequot at New London, at which he desired to furnish oless activated. Pequot at New London, at which he deared to furnish okra soup. Finding none in the city, he telegraphed to New York, asking a firm there to advise him whether they could supply him. Next day, in the midst of a rush of war telegrams to the New London Star, came one addressed to Mr. Stuart, which read: "We have got Okra." By mistake the address was omitted in copying, and the telegrain sent to the office with the war nown. The intelligent editor ren over the news till his eyer fell on this mysterious telegram, which he entirely misconceived, and at once got out a big bulletin—"Another great victory by the Union forces! We have got Okra!"

SKEPS (O) NEWS CHARLES

THE BOSS!

MISCELLANEOUS.

Over 150,000 Sold.

ed April 2, 1878, June 11, 1878, and

Boss Coffee, Tea Pots & Urns. It is the Boss! Why? Because it produces

Boss Coffee.

It makes rich flavored Coffee! Why? Because all the aroma and food are retained. It beats them all! Why? Because it saves 180 per cent over bolled Coffee, which is not Coffee, but litter water. Second—Because it saves by per cent. over any other method of making Coffee. Third—Because it saves eggs and trouble of clarifying. Fourth—Because it makes Coffee as clear as red wine. Fifth—Because it takes only two minutes to make Boss Coffee.

While Edison may furnish light to millions, the BOSS will assuredly give health to all who use it. Thousaids have become dysceptic and billious from drinking boiled coffee or arreas waters, (boiled coffee is not coffee, but bitter water Poisonan with coffee incotine). Stop drinking boiled coffee. Make your coffee as MATORE CHARLED, and restore your health. Many inventors have racked their brain to furnish the human family with a practical method of making coffee. At last the MATY MERUIT has been accomplished in the production of very cheap and cimple Pots and Urms celebrated as the BOSS.

To Whom IT MAY CONCERN.—After thoroughly testing the BOSS COFFEE POT, we, the understyned, fully endorse the same as the best method of making Coffee we Lave ever seen. Besides saving eggs, it will save a large per ceut. of the Coffee. It produces Coffee as clear as wine, which is much stronger, and has a more delicious flavor than any coffee made by any other process.
